Automatic Pool Cleaner

BARACUDA
THE TRUSTED NAME IN POOL CARE

TRACKER

DESCRIPTION

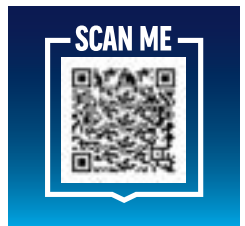

It's compact in size yet demonstrates an ultra powerful and efficient clean. The maneuverability of the Tracker enables it to reverse in and out of tight corners where traditional disc cleaners may become stuck. The Tracker simply connects to the skimmer box similarly to other suction pool cleaners.

Product	Product Code	Barcode	Pack Size	Weight (kg)	Dimensions (mm) (LxWxH)	Manufacturing Defects Warranty
Baracuda Tracker Automatic Pool Cleaner	630-3035	6009626403756	1	7.5	1005x260x319	2 Years*

FEATURES AND BENEFITS

- **Constant Cyclonic Suction Power** Constant suction power technology enables the Tracker to capture maximum debris whilst maintaining a high level of suction power for maximum cleaning efficiency
- **Tracker X-Trax** The superior design of the tracks allows the Tracker to grip on to all surfaces of the pool
- **Flex Power Turbine Engine** The turbine engine automatically drives the pool cleaner to clean the pool floor and climb walls whilst operating at an efficient flow rate
- **Easy to Operate** Light weight and easy to operate with little maintenance makes the Tracker user friendly
- **Certified to South African safety standards**
