

GEMINI

DESCRIPTION

The Gemini Twin Sweep automatic swimming pool cleaner is durable and made to last in the harsh African conditions. This automatic swimming pool cleaner works with the suction power of your swimming pool. It consists of three moving parts in total and is therefore quite cost effective to maintain in the long run. The hammer action pool cleaner that is easy to install and maintain. It also includes a UV stabilized hose and UV protected body and the wide suction mouth to capture large and small debris for a spotless clean pool.
